

OPEN HOUSE HOBART

YOUNG VISIONS FOR THE FUTURE

Think outside the square.

The City of Hobart is currently developing the North Hobart Neighbourhood Plan. This is a 20-year plan that will guide the future growth of North Hobart. And we want to hear from you!

Entries will inform the North Hobart Neighbourhood Plan. The key themes you put forward in your design will be collated with community feedback on the Discussion Paper currently out for engagement.

If you want to learn more about the Neighbourhood Plan, please visit www.yoursay.hobartcity.com.au/north-hobart-neighbourhood-plan

Exhibition

Entries will be displayed and the public will decide on a 'people's choice' winner, with the incentive of a prize for voters and winners.

The winning entries will be notified by email.

Entries

Simply present your design on max. 2 x A3 pages for your chance to win a prize.

Please include your Name, School, Grade and Design Ideas in max. 500 words explaining why you have proposed this design and how it will serve the North Hobart community on your entry.

Categories: Grades 5 - 12.

Entry Deadline: 9am Monday 16 October 2023

Email to: tasadmin@architecture.com.au

Please note:

The winning design will not be developed.

OPEN HOUSE HOBART

Create a vision for the future of Condell Place!

The City of Hobart is proposing that we explore how the Condell Place car park is used in the future.

Ideas so far include:

- 1 Consolidating car parking into a smaller footprint; and considering below ground parking.
- 2 Identifying opportunities for new open space and greening; that are functional, attractive, safe, and welcoming spaces.
- 3 Increasing site activity with ground floor shops and/or cafes; design of shopfronts and entries to see outside and provide weather protection.
- 4 Investigating uses such as affordable or social housing on multiple levels above the ground floor.
- 5 Improving paths along Burnett and Condell Place and improving pathways through to Burnett Street.
- 6 Ensuring the area facing Little Arthur Street and adjoining residential lots is sensitively designed with regard to setbacks, height, privacy and heritage.
- 7 This area is not included in the competition site.

But we want to see your ideas!

Let your imagination run wild!

Your design might include art, apartments, buildings, furniture, lighting, plants, play equipment, sculpture, shops, structures, water features – the list is endless!

Please note: This competition is a way for the City of Hobart to see your ideas for the future of North Hobart. The winning design will not be developed.

Questions you might ask yourself:

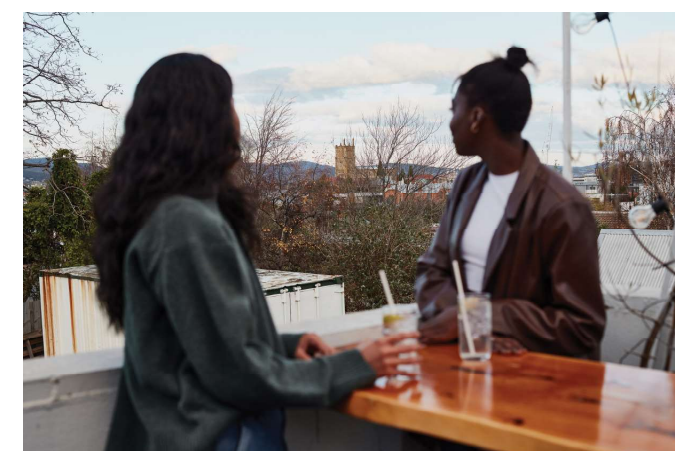

- What does North Hobart need, that it doesn't currently have enough of?
- What opportunities does this site provide?
- Who would use the site?
- How would your proposal be impacted by the site's slope, existing trees, neighbouring homes and businesses, views and sun?
